Corporations Informed That, Unless Concessions Are Granted, State May Go Into Control of the Democrats.

REPUBLIC SPECIAL

Wilkesbarre, Pa., Sept. 2.-Persistent reports that the strike is close to an end prevail throughout the region to-night.

The statements of Senators Platt and York, are at the Planters. Quay of the last few days have caused a Quay of the last few days have caused a change in the prophecies of those who believed it would drag to a wearisome length and to-night it is believed by men close to spent yesterday at the St. James.

It is believed here that the levelonments of the last few days show that the operators, threatened with the loss of a Republican governor and Legislature in this State, can be compelled to make concessions and

end the strike.

At present the labor vote is believed to be going steadily to the Democrats and to candidates of the Lagislature as a stricture of the Southern. candidates of the Legislature who pledged to vote for laws favoring the union men. These laws would be an eight-hour work day, compulsory arbitration and others which would be of more benefit to the miners than the granting of every demand they are now making.

At Harrisburg yesterday the railroaders Indorsed Pattison, the Democratic caudi-date, for Governor, and this is taken as an istered at the Southern. indication of how the labor vote of the State will go.

QUAY AND PENROSE ARE ALARMED. Senators Quay and Penrose, alarmed for the safety of their ticket, see in this trend guest at the Planters. the opportunity for regaining the labor vote by forcing the operators to make concessions, and politicians here to-night who are close to them, believe that this is what they have done, and that, upon the prom ise of the operators to settle the strike Senators Plat and Quay have made the statements attributed to them.

What concessions may be offered, if any, are merely surmise, but it is expected it will, in all likelihood, be a sweeping offer of 10 per cent, with a settlement of such questions as the weighing of coal, the recognition of the union or a minimum wage scale. Whether it would be accepted by the strikers is another question. It would probably be referred to a convention of strikers by President Mitchell.
